During the last fiscal quarter, we became aware of personal charges that had been made to a municipal credit card by a former employee. An investigation is underway and the former employee has been invoiced for the amount owed to reimburse the municipal account fully. We are also developing a new protocol for credit card use to ensure that they are expended for proper municipal purposes. We are disappointed that tax dollars entrusted to us by our community members were spent this way. We are committed to making this right.

Mayor

Paul Schoppmann

Municipality St.-Charles
